2410 Calle de Principal - request to build a structure for the purpose of short-term rental. Historical Appropriateness Permit is necessary first before a zoning permit can be requested.

CED Salazar and commission reviewed proposed application to build a commercial structure for the purpose of operating short-term rental business. Concern was discussed about the property previously having a historic structure listed in Mesilla historic registry. The structure has since been demolished in the past leaving a basement which was backfilled.

New Mexico Department of Cultural affairs directory of qualified supervisory personnel in historic preservation, August 20123. Contacted a local agency on the list for a consultation. Brad from Epsilon Systems Solutions Inc stated property has no legal binding to SHPO as it is not being funded by the state. It is up to municipalities to determine outcome.

Karla McWilliams from Department of NM Cultural Affairs stated the same thing as Epsilon Systems Solutions Inc. She added if new construction is approved, new design should follow the

same pattern as the development zone but not the style. New addition needs to be apparent from the historic building(s).

Structure setbacks were discussed. A right of entry form will need to be submitted if applicant wishes to construct structure on property line as defined in MTC 18.40.040(A). A fire-resistant wall facing the perimeter if within 3-feet otherwise, a 7-foot setback is required.
