The Contractor shall receive all applicable proceeds or pay all fees associated with collected yard debris. Disposal fees for contaminants collected with yard debris shall be the responsibility of the Contractor. The Town reserves the right to exclude the recycle option from the contract if the Town believes that it would not be in the best interest of the Town.

2. 8. PREPARATION OF PROPOSAL FORMS

All blank spaces in the Proposal Forms must be completed in black ink, by typewriter or by reproduction of the original forms with a computer. No changes shall be made to the forms. If forms reproduced by a computer are substantially different than the Proposal Forms, the Town may deem the Proposal non-responsive. The Proposal prices must be inclusive of all costs of providing the services and equipment required under the Contract. The Town may deem any Proposal non-responsive that contains omissions, erasures, alterations or additions of any kind, or prices uncalled for, or obviously unbalanced, or any proposal that in any manner fails to conform to the conditions of this Request for Proposals. The Proponent must sign its Proposal in ink in the blank space provided and all names must be typed or printed below the signature, along with evidence that the Proponent is a duly organized and validly existing firm, licensed to do business in the Town. If not licensed, a sworn statement must be attached that the Proponent will take all necessary actions to become so licensed if selected as the Successful Proponent. The legal name of the person, firm or corporation submitting the Proposal must be typed or printed in the space provided at the bottom of each page of the Proposal Forms. Proposals by corporations must be executed in the corporate name by the president or a vice-president (or other corporate officer accompanied by evidence of authority to sign). 2. 9. SUBMISSION OF PROPOSALS

Proposals must be submitted no later than the time and at the place indicated in the Advertisement for Proposals, and must be enclosed in a sealed carton, marked with the words "PROPOSAL ENCLOSED - TOWN OF MESILLA SOLID WASTE COLLECTION" and marked so-as-to indicate, without being opened, the name and address of the Proponent. Prior to the time and date designated for receipt of Proposals, any Proposal submitted may be modified or withdrawn by notice to the person receiving Proposals at the place designated for receipt of Proposals. Such notice must be in writing or by facsimile to the Town contact shown in Section 2.2 and shall include the signature of the Proponent and must be received before the date and time set for receipt of proposals. If by facsimile, written confirmation including the signature of the Proponent must also be received on or before the date and time set for receipt of Proposals, and must be worded so as not to reveal the amount of the original Proposal. If, within twenty-four hours after Proposals are opened, any Proponent files a duly signed, written notice

2. 11. BASIS OF AWARD

The Town reserves the right to reject any and all Proposals, to waive any and all informalities, and to disregard all nonconforming, non-responsive or conditional Proposals. Town reserves the right to negotiate contract changes with the Finalist and/or to award the Contract to any Proponent, in the Town's sole discretion. The Town further reserves the right to reject the Proposal of any and all Proponents if the Town believes that it would not be in the best interest of the Town to make an award, whether because the Proposal is non-responsive or because the Proponent is found to be not responsible or fails to meet any other pertinent standard or criterion established by the Town. The Town will base its choice on considerations including, but not limited to, unit prices and the clear ability of the Proponent to successfully perform under the terms of the Contract. The Town may conduct such investigations as the Town deems necessary to assist in the evaluation of any Bid and to establish the lowest responsive and responsible Bid and to otherwise make its selection. The Town's evaluation committee will then select a finalist Proponent. A contract will then be finalized with the selected Proponent, or another Proponent if contract finalization with the finalist is not successfully concluded in a timely manner.

2. 12. PROJECT START DATE

The Project will start on the date of Contract Execution. The Contractor will commence collection services under the Contract on June 30, 2025.

2. 13. PUBLIC DOCUMENTS AND DISCLOSURE

All submissions are the property of the Town and become public records, subject to disclosure after the Town selects a Successful Proponent. Any evidence that indicates a Proponent has failed to comply with the specific Process Integrity Requirements, or has otherwise substantially diminished the Town's ability to award a Contract in a timely manner and free of contention, may result in that Proponent's disqualification and forfeiture of the Proponent's Proposal Bond. CERTIFICATION OF PROPOSAL - DECLARATION AND UNDERSTANDING

Proponent's Declaration and Understanding

The undersigned Proponent declares that the only persons or parties beneficially or financially interested in this Proposal are those named herein; that this Proposal is, in all respects, fair and without fraud; that it is made without collusion; and that the Proposal is made without any connection or collusion with any person submitting another Proposal on this Project. The Proponent declares that this Proposal is genuine and not made in the interest of or on behalf of any undisclosed person, firm or corporation; this proposal is not submitted in conformity with any agreement or rules of any group, association, organization or corporation; the Proponent has not directly or indirectly entered into any agreement, induced or solicited any other Proponent to submit a false or sham Proposal; the Proponent has not solicited or induced any person, firm or corporation to refrain from Proposing; the Proponent has not sought by collusion to obtain for itself any advantage over any other Proponent or over the Town; and Proponent has not otherwise taken any action in the restraint of free competitive proposals in connection with the Project for which this Proposal is submitted.

The Proponent declares that it has familiarized itself with the nature and extent of the Contract, the existing Project, all local conditions and all other relevant facilities, properties, laws and regulations that in any manner may affect cost, implementation, progress, performance or furnishing of the Project. The Proponent has satisfied itself as to the services and equipment to be provided, including the fact that the description of the services and equipment is brief and is intended only to indicate the general nature of the Project, and that this Proposal is made according to the provisions and under the terms and conditions of the Contract, which are hereby made a part of this Proposal.

The Proponent further acknowledges that it has satisfied itself as to the nature and location of the Project, the general and local conditions, particularly those bearing on the availability of equipment, access, recycling and organic material markets, disposal bpmfs, availability of labor, roads, and the uncertainties of weather or similar physical conditions in the Town, the character of equipment and facilities needed to execute the Project, and all other matters that may in any way affect the Project or the cost thereof under the Contract.

The Proponent further acknowledges that it has satisfied itself as to the character, quality and quantity of information provided by the Town regarding the Existing Project and solid waste system, and the Proponent has adequately investigated the Town's customer base and any additional information that may be provided by the Town. Failure by the Proponent to acquaint itself with the physical conditions of the Town's customer base and all available information will not relieve it from responsibility for properly estimating the difficulty or cost of successfully performing the services and providing the equipment required under the Contract.

The Proponent warrants that, as a result of its examination and investigation of all the data referenced above, it can execute the Project in a good, timely and workmanlike manner and to the satisfaction of the Town. The Town assumes no responsibility for any representation made by any of its officers or agents during or prior to the execution of the Contract, unless (1) such

representations are expressly stated in the Contract; and/or (2) the Contract expressly provides that the Town therefore assumes the responsibility.

The Proponent has given the Town written notice in a timely manner of all conflicts, errors, omissions or discrepancies that it has discovered in the Proposal Documents and the written resolution thereof by the Town is acceptable to the Proponent.

Contract Execution, Performance Guarantees And Insurance

The Proponent proposes and agrees, if this Proposal is accepted, to enter into a Contract with the Town, in the form substantially similar to the Contract included in the Proposal Documents, to provide services and equipment as specified or indicated in the Contract for the prices and during the time period indicated in this Proposal and in accordance with the other terms and conditions of the Contract.

The Proponent accepts all of the terms and conditions of the Proposal Documents, including, without limitation, those dealing with the disposition of Proposal Security. This Proposal will remain subject to acceptance until 180 days following Proposal submittal. The Successful Proponent will sign and submit the Contract with the letter of credit and proof of insurance acceptable to the Town within five days after receiving the Notice of Finalist.

Self-Reliance

The Proponent acknowledges that the information contained in this Proposal represents our understanding of the Town's existing Project, terrain, streets, alleys, container locations, recycling and organic debris markets, and other conditions that could affect the costs or operational efficiencies of fulfilling the Contract. In preparing this Proposal, we have relied on our own investigation and research.

Start Of Project And Contract Term

If awarded a Contract, the Proponent agrees to commence all collection services under the terms and conditions of the Contract on June 30, 2025. The Contract will extend through June 30, 2023, with a provision for up to two separate one-year extensions through June 30, 2028.

Unit Price

The Proponent proposes to invoice and collect payments of the Contract charges (rates), as set forth under the provisions of the Contract.

Contractor charges (rates) will be adjusted upward or downward as provided in the Contract unless prohibited by law or a vote of the people, in which case the Contract will be subject to renegotiation under Section 6.4 of the Contract. The Contractor will be responsible, generally, for all real (non-inflationary) cost increases, and will benefit from any real cost decreases, except as specifically agreed to in the Contract. The Proponent understands that the per unit served price and the price adjustments are independent of the quantities and quality of materials collected. The Proponent agrees that the per unit served price and the price adjustments represent a reasonable measure of the labor and materials required to execute the Project, including all allowances for overhead and profit, and applicable taxes, fees and surcharges for such services. Prices shall be given in U.S. dollars and cents.
